

Dear Secretary,

Thank you for receiving this material.

It contains:

- TOPIC: [001/2017](#)
- Investigations
- AA Structure Review Plan

The AA Structure Review Plan is a result of an initiative undertaken by the Australian General Service Conference in 2015 and 2016, and aims to survey views of all members of the AA Fellowship on their ideas about how AA in Australia is currently carrying out its major task: carrying the message to the Alcoholic that still suffers.

Please distribute enclosed material to be read by members of your group.

The proposed timeline in 2017 for completion of this project:

Mid-April - material read by AA members

Mid-April to end of May - Area E Committee members will provide your group and groups in your close proximity with an (approximately) one hour interactive presentation which will allow you to understand the reasons behind the proposal, and we hope that you will then understand the importance of the steps in building for the future of AA in Australia for the sick alcoholics who will need our on-going support in years to come.

June –We hope that by the end of June your group conscience will have had enough time to consider the information and discuss it, allowing for members to vote on any of the four scenarios on p.10 in *Investigations*.

August - Area E Eastern Region Assembly to provide an opportunity for representation from all the groups to participate in the group conscience of Area E, should they wish to ensure that their voices are heard.

If you are not able to attend the Assembly the results from your group conscience could be emailed to Area E Delegate.

November 2-5 - presentation of Area E Easter Region Group Conscience to the Australian General Service Conference and Structure Review Committee.

Thank you for your participation

Yours in Service, Unity and Fellowship

John B
Area E Delegate
